

## What Do You Currently Contribute to the Ministry of Testing Community?

Here are five lists of how you can contribute to Ministry of Testing and the testing community. Some actions may seem trivial, but they all add up to being important and help create a valuable community where people feel they belong.

If you're looking to become a more active community member, it's important to establish what you're already doing. Use the lists below to check off what you currently do. You might find you're happy with your contribution level. Or you might identify a new contribution goal!
